5235 Mission Oaks Blvd,   **User name: @kidstream**
Suite 356   *When sending a payment, include your **NAME, TEAM NAME & PHONE #**
Camarillo, California 93012   and email your t-shirt order form & design to iris.ilao@kidstream.org

T-Shirt Front Design: (The back will have our sponsors' logos and the FLL theme.)

You may create your own design, or you can use a default design that we will provide.
Maximum design size is 8.5" x 11".

Here are the key points:
1. Keep it simple. Limit yourself to two / three graphics. Avoid complex images.
2. Submit your design in black & white.
3. Hand-drawn designs are usually problematic. Hand-drawn can be acceptable if it is a simple logo done as black on white with <u>thick</u> lines. (ie regular Sharpie on white paper)
4. Electronic designs are best. Acceptable are Adobe Illustrator, EPS, PDF, JPEG, PNG
   If you can send a PDF along with your original, please do that.
5. If you use unusual fonts, please provide the names of the fonts used. _____
6. Don't put each kid's name on the design. You can add these later with fabric markers or puff paints.

Please name your files as follows:

Order file:
TeamName_color shirt color ink Order.doc
        <u>Example</u>: Cyber-Eagles_Red shirt blue ink_Order.doc

Design file:
TeamName_color shirt color ink_Design.ppt (or .jpeg, etc)
   <u>Example</u>: Cyborgs_red shirt blue ink_Design.doc

Google: *coloring pages* for some good outlines
In Google Images, click search tools, and set color to Black & White

Samples of Preferred T-Shirt Artwork

Vector art (Adobe illustrator)	Vector art (Adobe illustrator)	Made from standard PowerPoint shapes. Can be ungrouped.
• Simple design. •Thick lines (thin lines are ok for accents) •Standard fonts or Fonts converted to outlines/curves. •Little to no changes needed		

Samples of Good T-Shirt Artwork

Black & White clip-art	Hand-drawn with clean, dark lines. Simple design	Thin lines, little work needed

Samples of Unacceptable T-Shirt Artwork

Hand-drawn, many lines, messy	Excellent hand drawing, but shaded & some gray lines	Clip-art is bit-mapped, not vector. Can't be ungrouped Color images can't be printed
Hand-drawn can only be accepted with a few simple dark lines that converter to vector graphics can find.
